## QUANTITY DISCOUNT REQUIREMENTS

- **ONE CREDIT CARD FOR PAYMENT:** Your transaction must be paid for with a single credit card. Most credit cards have a spending limit per transaction. Please check that your purchase does not exceed your card's transaction limit.
- **SAME BINDING:** All workbooks in the order must have the same binding option. Example: all 3-Ring Binders or all Coil-Bound. Mixing of binding options will not qualify for quantity discounts.
- **NO CUSTOMIZATIONS:** We have set pricing with APEX for specific printing options. We are not able to customize or change the printing options.
- **NO ADD-ONS:** We start processing your order as soon as it is received. No additional workbooks may be added after you place your order.

Quantity orders  
will receive **FREE**  
shipping with one  
point of delivery!

# APEX FAQ

## **Why is the Color Binder option recommended?**

APEX recommends this option so that you get the best experience from the APEX Anesthesia book. The photos / diagrams are all in color making them easier to follow for the student. The binder will allow you to remove and insert pages to write on them more easily.

## **Can I print my book single-sided?**

No, due to the high page count and keep shipping costs low we do not currently offer this as a printing option.

## **Can my book be split into multiple books or binders?**

No, we do not offer this option. If you would like your book to be split, we recommend ordering the 3 Hole Punched options (No Binder) so that you are able to split the book as you would like into multiple binders you provide.

## **Will my writing or printer ink bleed through to the other side?**

No, while our 20/60# paper allows us to be as cost effective as possible for you, there should be no issues with bleed through with normal writing pressure and typical inkpens. We DO NOT recommend using permanent markers.

## **Is this the most up to date book?**

Yes, this is the most up to date version provided to us directly by APEX Anesthesia.

## **I am required to turn this in for a grade in sections. Will this interfere with future sections once a previous section is removed?**

There are no dividers between sections at this time. Our best suggestion: make a printed copy of sides as needed to complete the section.

## **Are there any section dividers or tabs?**

There are no section dividers or tabs. With the binder options, any sticky note tabs or tabbed section dividers you'd like to add will be protected by the binder.
